

## FIXING PLUGS

Designed and manufactured in the UK by Talon, these fixing plugs are manufactured from premium grade polymer.

### Technical data

Talon wall plug fixings are put through vigorous tests to find the ultimate pull out value. Plugs are set into a concrete section and results are taken using a Hydrajaw Tension tester. Please note pull out values will vary depending on the material the plug is fitting into.

The fixing plugs are designed with a 2 way expansion system, this provides rapid fixing with high pull out values of up to 4.2kN. The plugs are also moulded with protruding side fins which restrict rotation and prevent fall out from overhead holes.

### Screw compatibility
